

Occupational Aptitude Survey and Interest Schedule

SECOND EDITION

Randall M. Parker

STUDENT BOOKLET

This schedule asks what jobs and work activities you think you would like. For each question you will have three choices.

If you LIKE the activity in question, on the answer sheet mark the circle with the L.

If you feel NEUTRAL, darken the circle with the N.

If you DISLIKE it, darken the circle with the D.

Use a number 2 pencil and make dark, heavy marks. Do not wrinkle or make stray marks on the answer sheet. Erase any errors thoroughly, and mark only one answer for each question.

Work as quickly as you can, although you will not be timed. Answer every question and do not write in the test booklets. Begin the Interest Schedule now and continue until you have finished all 240 items.

OCCUPATIONS

1. Musician
2. Astronomer
3. Farmer
4. Police Officer
5. Electrical Engineer
6. Industrial Machine Operator
